

Linear 100 Wall Washer Surface Mount Installation Instructions

Step 1

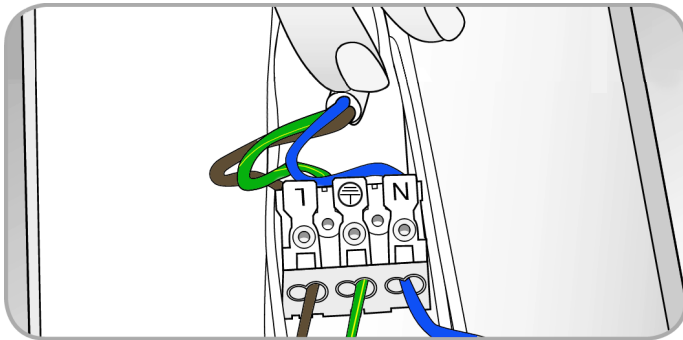

Remove cover plate assembly.

Step 2

Secure fitting to ceiling via 2 x 6mm mounting holes along centre of the fitting. Ensure LED's are directed towards the wall.

Step 3

Wire in power to terminal block on fitting.

Step 4

Screw cover plate assembly back on. Keep wires tucked away.

Step 5

Place smooth side of the diffuser into light fitting by pushing up one end on an angle and sitting it between the retaining flanges.

Note

Position fitting 1/3 of the mounting height away from the wall.
