

# On Track **The Flash** Installation Instructions

## Step 1

Track mounting options:

Option 1 - Secure track to ceiling/mounting point by screwing through track mounting holes directly into ceiling.

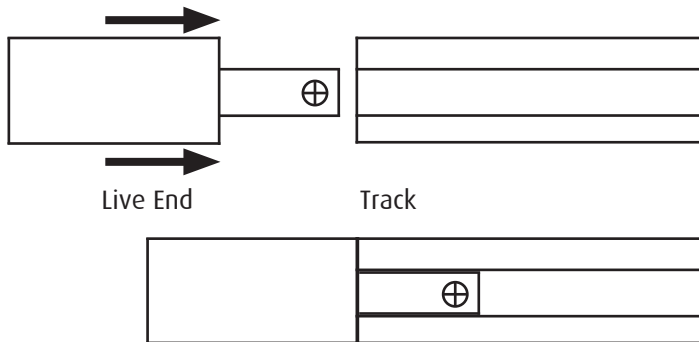

Option 2 - Attach to ceiling/mounting point using LimeLite's Wire Suspension Kit.

## Step 2

Attach Live End to one end of the track.

Slide in until Live End locks into place. Tighten screw once in place.

## Step 3

Wire Live End to Power supply using 2 core 48V Wire. Can be mounted upto 30 meters away from the track.

## Step 4

Wire 240V into Power Supply.

## Step 5

Secure track light to track by aligning the base connector to the dented line, position light on the track by sliding left or right. Rotate anti-clockwise ONLY to lock into place.
